X1 Appoints Legal Technology Pioneer Rob Lekowski as Chief Revenue Officer

Renowned growth and strategy leader joins X1 to further accelerate global expansion of industry-leading in-place data discovery solutions

(Los Angeles, CA) – April 10, 2024 - [X1]®, the global leader in index-in-place data discovery software for legal, compliance, investigations and productivity, today announced the appointment of Rob Lekowski as the company's new Chief Revenue Officer. As CRO, he will apply his extensive industry expertise to further accelerate growth of X1's data discovery solutions, expand and enhance value for customers and lead X1's sales strategy and team.

Rob Lekowski brings over 20 years of combined legal, eDiscovery and investigations technology expertise to X1, having previously held senior positions at several innovative companies in the eDiscovery space. "Rob is a pioneer and highly respected leader in the eDiscovery and legal industry, " said Larry Gill, Chief Executive Officer at X1. "We are extremely pleased to welcome Rob to the X1 team. Rob's large-scale domain expertise, known ability to drive exponential growth, and in-depth leadership skills driving top performers will help further expand X1's patented technology and industry-leading eDiscovery software solutions globally."

Rob's proven practices on building people, process and technology has consistently ignited significant growth with every organization he has worked with. Prior to joining X1, he led strategic sales efforts and consultancy services for organizations in the eDiscovery industry and successfully drove revenue increase with ESI Analyst (Acquired by CloudNine), DSi/Legility (Acquired by Consilio), Recommind, Inc. (Acquired by OpenText) and Fios, Inc. (Acquired by DTI). Rob has a Bachelor of Science degree in industrial management and engineering from Purdue University.

"I am thrilled to join X1 to continue escalating growth with this highly accomplished team and its industry-differentiating solutions," said Rob. "X1's unique index-in-place search and collection technology enables you to perform lightning-fast, federated, and highly targeted, search and collection of on-premise and cloud-based data sources. The ability to deploy this technology across the full Microsoft 365 suite (Teams, OneDrive, SharePoint, and Mail), as well as file-shares and traditional data sources, and *then* only collect what you need is a game changer. I am elated to join the X1 team and help champion such a revolutionary approach to data discovery."
